

AUDITORIUM SEATING

SEATS THAT PERFORM FOR EVERY TYPE OF SPACE

**ARE YOUR AUDIENCES
SITTING COMFORTABLY?**

YOUR VENUE, YOUR SEAT!

The type of seating used in auditorium venues such as universities, concert halls, and religious buildings is extremely important. Think about it – auditoriums are where people come to learn, view a performance, or work on projects. If people are sitting comfortably, then they are going to be far more engaged and motivated. Whereas people who are sat uncomfortably are likely to become distracted and less focused. For that reason, carefully considering the best seating options for your auditorium is key to its success!

Race Furniture has provided auditorium seating for prestigious venues around the world including science institutes, media centres, religious buildings, court rooms and conference facilities. By offering a complete service, from site survey and product design, to space planning and final installation, we can ensure that the optimum layout and level of comfort is achieved through our seating systems.

Now let's get to work seating your audiences in ultimate style!

MEET THE SEATS

A photograph of a modern concert hall with a curved wooden interior. The stage features a grand piano and a small stool. The audience seating is visible in the foreground, and the ceiling has a complex, curved design with recessed lighting. The text "MEET THE SEATS" is overlaid in the center.

BROADWAY

BROADWAY BY NAME, BROADWAY BY NATURE – A REAL SHOWSTOPPER!

The pioneering pedestal seat! Our Broadway seat offers a world of possibility with its customisable elements, including raised backs, bespoke handrailing, and dynamic sizing. This style is perfect for layouts on a tight curve.

Features & Benefits

- Bespoke seat height, width, and back angle dimensions
- Wide choice of finishes and upholstery styles
- Customisable arm rests, end panels and writing tablets designs
- Custom-made seat signage
- Finger-safe seat tipping mechanism
- Pedestal air ventilation system
- Optional integral Krantz air diffuser within pedestal base
- Optional power and data ports
- Fixed and removable options
- DDA Provision
- Typically, seats are all FSC approved, and contain 80%+ recycled steel content
- Integrated cable management, signage, and storage solutions

“

Working with Race has been fantastic...

...we were able to give our audiences a comfortable environment to enjoy a show. The chairs interlock simply and look very elegant in our space.”

LOOKING FOR SOMETHING A LITTLE MORE SPECIFIC?

WHY NOT GO BESPOKE?

Really, everything we do is bespoke as all our products are fully customisable.

However, if you have a particular vision for your seat that doesn't fit with any of our standard customisable products then never fear, we can pretty much make anything!

Bespoke seating is one of our core competencies. Our skilled team will work with you to create the seat of your dreams, tailored to your venue, and needs.

People choose to work with Race because they know they will get exactly what they want. Why settle for anything less?

LOOKING TO ADD SOME SPARKLE BACK TO YOUR SEATS?

WE CAN TEACH YOUR OLD SEATS NEW TRICKS!

Our passion is creating environments that are comfortable and inviting to your patrons.

If your venue needs a revamp, refurbishing the seating can be the ideal way of modernising a space, and as a result enhancing visitor experience. Refurbishment offers a more cost-effective way of upgrading your seating, while also reducing waste by re-using and repairing existing components.

- We offer a no obligation site consultation. This allows us to assess your requirements and discuss your needs.
- We can work around your venue timetable offering a quick turnaround. This is because we understand that downtime can mean less revenue.
- By reusing and repairing as much of the original seat as possible we make the process more cost-efficient and create less waste.

WHY CHOOSE RACE?

A DEDICATED PROJECT TEAM

When you choose to work with Race Furniture you'll be working directly with and in constant contact with a dedicated team who will get to know everything about you and your project.

SITE SURVEY

We can come to your venue before we begin any work to survey the site. This gives us a better idea of the project and unique venue requirements.

DESIGN CONSULTANCY

Not only do our in-house designers design beautiful custom-made seats, but they are also experts in safety standards, ergonomic and anthropometric design, sustainable design, spatial planning, sightline analysis, 3D modelling, and so much more!

COST CONSULTANCY

The effective management of cost is a critical factor in the successful delivery of our client's project objectives. We support our clients by providing a proactive, 'hands-on', and innovative approach to the management of cost and value at each stage of the development lifecycle.

IN-HOUSE MANUFACTURE

All Race Furniture products are made to order by our highly skilled team in our on-site factory. This allows us to maintain exceptional quality standards, and a speedier process as communication between departments is instant!

GUARANTEED ON-TIME HANDOVER

Every project we have worked on, we have installed our seats and handed over the venue, on time! At the beginning of the process your project team will put together a thorough and realistic time plan. We will then work with you to make sure the plan is run to schedule and alongside your requirements.
